

FULL DAY TOUR TO KUMROVEC ETNO VILLAGE AND VELIKI TABOR CASTLE

Veliki Tabor castle

Standing alone at the top of the hill, it offers an eclectic mix of architectural styles from Gothic to Baroque. Construction of the castle first began in the 12th century, and continued through the ages, particularly in the 15th and 16th century. A chapel hides a female skull and legend about the love story between the son of the owner and beautiful girl Veronika of Desinic.

Kumrovec

Ethno village Kumrovec is the only outdoor museum in Croatia and the place where Josip Broz Tito was born. President of the former Yugoslavia for almost 40 years, admired and hated, he is still one of the most important persons of the 20th century.
